JABEZ PHALA

Software Developer | Software Engineer

Gauteng, Johannesburg | +27714118574 | jabezphala@gmail.com | LinkedIn | Github | Project Portforlio

I'm a **Software Developer** who loves turning ideas into working software. I've built backend APIs, mobile apps, and web applications, and I've learned a lot from maintaining software and studying how good systems are structured. Through my Honours year, I've learned computer vision, machine learning, and deep learning, and I enjoy using them to build real projects.

SKILLS:

- back-end development (API Service)
- Mobile development (Android and IOS)
- Front-end and back-end web development
- Databases (MYSQL, SQL), Coding
- Git and GitHub
- Agile(Scrum), and other methodologies
- Design and Documentation
- Statistics - Statistical Data Analysis (R programming language)

Software Coding Languages

- Java
- Python
- C#
- JavaScript
- C++
- Spring boot API
- HTML
- CSS
- ASP.NET
- React
- MySQL Databases
- VB
- Xamarin (Android and IOS)
- PostgreSQL
- ML/Deep Learning

WORK EXPERIENCE:

University of Jonannesburg

Student Assistant | 13 February, 2024 - 2026

- Hosting Saturday Online Coding Tutorials over 98% attandance and 89% Coding assistance
- Invigilating and marking semester tests
- Marking weekly Coding Practicals, over 79% coding compilation and debbugging.
- Reported back to instructor to receive day-to-day tasks.
- Used database and data entry software to update student information.
- Answered student questions and concerns over 90% student improvement rate.

EDUCATION:

- **University of Johannesburg**
  BSc Computer Science and Information Technology - Software Engineering

- **University of Johannesburg**
  BSc (Hons) Computer Science with AI - Software Engineering

RELEVANT PROJECTS:

Queue Ease

Full Stack Developer | 13 Fe, 2023- 30 November, 2023

- Digital queue-management system that allows users to join queues remotely, receive real-time updates, and reduce waiting times, while enabling service providers to manage and optimize customer flow efficiently.

ADDITIONAL SKILLS

Certificate Links

- 2025 App Academy Hackathon [FNB ITVasity]
- 2020 National Senior Certificates [Moutse Central Circuit]
- 2020 Grade 12 Academy Certificates[Ramatshagalala High School]
- 2019 Grade 11 Academy Certificates[Ramatshagalala High School]

ADDITIONAL LINKS

Project Demo Links

- Final Year Project Video Demo
- **App** & **Website Design:** Responsive web app and mobile app for Bank Online Queueing system, using Figma, HTML, CSS, JavaScript, AnyChat, ChatJS, jQuery, and backend services in Spring Boot.

Backend API, Mobile & Website

- Backend server for the final year project, built with Spring Boot and MySQL, implementing RESTful APIs. A cross-platform mobile application developed using Xamarin, integrating features like offline mode and real-time sync with server APIs.
